Data Structures & Algorithms (DSA)

GAUTAM RAWAT

Software Developer

Innovative and detail-oriented Software Developer with a strong foundation in Full-Stack Development, Problem-Solving, and Scalable Solutions. Passionate about creating impactful projects using Java, JavaScript, React, and Node.js. Seeking opportunities to contribute technical expertise in a dynamic development team.

EDUCATION

Full-Stack Development Scaler Academy

08/2023 - Present

Courses

- Developed proficiency in **back-end technologies** using **Node.js**, **Express.js**, and **RESTful API design** for building scalable web applications.
- Gained a deep understanding of **server-side rendering (SSR)** and **client-side rendering (CSR)** for optimized web performance.

Bachelor of Computer Applications Guru Gobind Singh Indraprastha University

10/2020 - 07/2023

Courses

- Hands-on experience with **Database Management Systems (DBMS)**, including **SQL** and **NoSQL** databases (e.g., MongoDB).
- Familiar with **networking** protocols (TCP/IP), IP addressing, and network security.
- Strong understanding of **mathematics for computer science**, including **Discrete Mathematics** and **Linear Algebra**.

WORK EXPERIENCE

Software Development Intern (Self-Projects & Open Source) (Freelance & Open-Source Contributions)

2023 - Present

Developed end-to-end web applications using React, Node.js.

Achievements/Tasks

- Enhanced UI/UX by implementing responsive design and optimization techniques.
- Collaborated on GitHub for open-source projects and contributed to bug fixes.

PERSONAL PROJECTS

Movie App (React, JavaScript, Tailwind CSS, IMDB API)

- Developed a React-based movie app integrating IMDB API for real-time movie data.
- Implemented watchlist functionality, sorting by ratings, and search feature.
- Achieved 40% faster movie search experience through optimized API calls
- <https://gauti05.github.io/Movie-app/>

Kanban Board (HTML, CSS, JavaScript)

- Designed a task management system to organize daily tasks based on priority.
- Users can filter tasks by priority using a color-coded system.
